

canadianstage producer's club

Joining the Producer's Club is a popular way for you to become more deeply connected to the work at Canadian Stage. You'll gain deeper insight into the productions through engaging talks at opening night pre-performance receptions. You'll be invited to participate in *Art Moves*, a series of cultural adventures led by members of our artistic team as they explore influences that impact the creative process at Canadian Stage. We invite you to develop long-lasting friendships with participants on our annual Fall Theatre Getaway, attend our annual dinner with featured artists and take full advantage of the many behind-the-scenes activities we have planned just for you.
